

North American Society for the Psychology of Sport and Physical Activity
Conference Program
New Orleans, LA
June 13 to 15, 2013

Wednesday, June 12

8 am - 5 pm

Executive Committee Meeting

Room: NORWICH

4 pm - 7 pm

Conference Registration

Room: FOUNTAIN

Thursday, June 13

8 am - 5 pm

Conference Registration

Room: FOUNTAIN

8:30 am - 10 am

CONCURRENT SESSIONS

Sport and Exercise Psychology: Symposium - Effects of acute exercise on cognitive performance: Understanding the role of potential moderators

Room: JEFFERSON

Moderator: Jennifer L. Etnier (University of North Carolina at Greensboro, USA)

Symposium Introduction

Jennifer L. Etnier, University of North Carolina at Greensboro

The role of AD/HD

Jennifer I. Gapin; Sara C. Bohall, Southern Illinois University Edwardsville; Jeffrey D. Labban, University of North Carolina at Greensboro

The role of memory type

Jennifer L. Etnier; Aaron T. Piepmeier; Matthew E. Davis; Jeffrey D. Labban; David A. Henning, University of North Carolina at Greensboro

The role of the timing of the exercise

Jeffrey D. Labban; Jennifer L. Etnier, University of North Carolina at Greensboro

The role of cardiovascular fitness and cognitive task type

Yu Kai Chang; Chun-Chih Wang; Chien-Heng Chu, National Taiwan Sport University

Motor Control and Learning: Verbal Presentations – Visuomotor control

Room: OAK ALLEY

Moderator: Anthony Carlsen (University of Ottawa, Canada)

8:30 Franklin Henry Young Scientist Award (SCAPPS): Directional biases for sequential eye and arm movements*Chris D. Cowper-Smith; J. Harris; G. E. Eskes; D. A. Westwood, Dalhousie University***8:45 Effects of visual illusion in a discrete aiming task at varying difficulties***Stephan Panzer, Institute of Sport Science; Peter Leinen, Saarland University; Charles H. Shea, Texas A&M University; Thomas Ellenbuenger, Saarland University***9:00 It is the oculomotor encoding and not attention-related processes of saccade preparation that is responsible for inducing spatial interference in fingertip trajectories***Brian A. Richardson; James Lyons, McMaster University***9:15 Optimizing the control of high ID wrist and arm movements***Jason B. Boyle; Deanna Kennedy; Chaoyi Wang; Charles H. Shea, Texas A&M University***9:30 Visuo-haptic integration during object size discrimination: An fMRI study***Chiahao Lu; Joshua Aman; Juergen Konczak, University of Minnesota*

Motor Control and Learning: Verbal Presentations – Demonstration and instruction

Room: ELMWOOD

Moderator: Gabriele Wulf (University of Nevada, Las Vegas, USA)

8:30 On the advantage of an external focus of attention: A benefit to learning or performance?*David E. Sherwood, University of Colorado; Keith Lohse, University of British Columbia; Alice F. Healy, University of Colorado at Boulder***8:45 Self-control of attentional focus cues when learning a novel task***Kevin A. Becker; Jeffrey T. Fairbrother; Arya Alami; Kevin M. Fisher, University of Tennessee***9:00 Negatively biasing performance expectations interacts with focus of attention effects***Jared M. Porter, Southern Illinois University Carbondale; Will Wu, California State University Long Beach; David Marchant, Edge Hill University; Shailey Brumley; Justin B. Ostrowski, Southern Illinois University Carbondale***9:15 Development of the link between perception and action is supported by both observational learning and physical practice training protocols***John J. Buchanan; Jorge Ramos, Texas A&M University; Nina Robson, California State University-Fullerton***9:30 Relearning of acyclic swimming techniques with video-based knowledge of performance in experts is affected by additional knowledge of results***Daniel Krause, University of Paderborn***9:45 Self-controlled video feedback is effective for learning when children adopt higher viewing frequencies**

Kelly A. Vertes; Michael J. Carter; Victoria Smith; Diane M. Ste-Marie, University of Ottawa

Sport and Exercise Psychology: Verbal Presentations – Self perceptions

Room: JASPERWOOD

Moderator: Jennifer Brunet (University of Ottawa, Canada)

- 8:30 **Exploring body-related self-conscious emotions as predictors of exercise motivation among older adolescents**
Gina Pinsonnault; Catherine M. Sabiston, University of Toronto
- 8:45 **Measuring body-related envy: Implications in daily physical activity in young adult females**
Eva Pila; Catherine M. Sabiston, University of Toronto
- 9:00 **The role of education on perception of self in college-aged students**
Tania S. Flink; Suzanne E. Kitts; Kory A. Stauffer, Gannon University
- 9:15 **Exploring body image experiences of breast cancer survivors in the CIBC “Run for the Cure” 5k**
Katherine M. Maciulewicz; Kent C. Kowalski; Louise Humbert, University of Saskatchewan; Catherine M. Sabiston, University of Toronto; Roanne Thomas, University of Ottawa
- 9:30 **Physical activity during cancer survivorship: Social physique anxiety predicts trajectory group membership**
Jennifer Brunet, University of Ottawa; Michael Chaiton; Catherine M. Sabiston, University of Toronto
- 9:45 **Exercise and health-related quality of life in elderly people: The mediating effects of physical self-concept**
Roanne W. P. Lee; Yueh-Yu Lin; Frank J. H. Lu, National Taiwan Sport University

10 – 10:15 am Refreshment Break

10:15 – 11:45 am CONCURRENT SESSIONS

Motor Control and Learning / Sport and Exercise Psychology: Verbal Presentations –

Expertise and decision making

Room: JEFFERSON

Moderator: Joseph Baker (York University, Canada)

- 10:15 **A proposed theoretical model to explain relative age effects in sport**
David J. Hancock; Ashley L. Adler; Jean Côté, Queen’s University
- 10:30 **Selective effects of motor expertise on detecting the intentions of others: Motor experts only perform better than novices in identifying passing actions when not deceived by head fakes**
Yvonne Steggemann, Paderborn University; Benjamin Schmitt, Saarland University; Wilfried Kunde, Julius-Maximilians-University of Würzburg; Matthias Weigelt, Paderborn University
